LeetCode:

[leetcode.com/u/MohanapriyaChandrasekaran/](https://leetcode.com/u/MohanapriyaChandrasekaran/)

## OBJECTIVE

Motivated Computer Science Engineering student specializing in Web Development with hands on experience in building responsive and scalable web applications using React.js, JavaScript, and Bootstrap. Strong problem-solving skills with a passion for learning new technologies and contributing to real-world software projects.

## EDUCATION

**B.E Computer Science and Engineering** | V.S.B College of Engineering Technical Campus, Coimbatore  
2023 – 2027 | CGPA: 8.64/ 10

**HSC** | Model Higher Secondary School, Tharagampatti  
2022 – 2023 | Percentage: 79.5%

## SKILLS

- **Programming:** Java, JavaScript (Basics)
- **Web Technologies:** HTML, CSS, Bootstrap
- **Frontend:** React.js, Responsive Web Design

## AREA OF INTEREST

- Frontend Development
- Web Development
- MERN Stack Development
- Java Programming

## CERTIFICATIONS

- **NPTEL**– Google Cloud Computing Foundation
- **NPTEL** – Big Data Computing
- **Infosys Springboard** – HTML Basics
- Basic Exposure to IoT Concepts

## PROJECTS

### Expense Tracker – MERN Stack Web Application.

- Developed a full-stack expense tracking web application using MongoDB, Express.js, React.js, and Node.js.
- Designed responsive user interfaces to add, manage, and track daily expenses.
- Integrated frontend interfaces with backend APIs for data storage and retrieval.
- Implemented form validation and responsive UI for improved user experience.

### Natura Mart – Online Grocery Frontend Website

- Built a responsive grocery web interface using React.js and Bootstrap.
- Created reusable React components for product listing and navigation.
- Enhanced mobile responsiveness and user-friendly interface design.

### Electricity Bill Management System – Java Application

- Developed a Java-based application to calculate and manage electricity bills.
- Implemented unit-based bill calculation logic and customer input handling.
- Displayed billing details including units consumed and total bill amount.

## INTERNSHIP

### Software Web Development Intern – Qbatzclay | June 2025- July 2025

- Worked on front-end web development using React.js.
- Built static and responsive pages following modern UI practices.
- Collaborated with team members to improve usability and performance.
- Gained hands-on experience in real-world web development workflows.

### MERN Stack Intern – Viruzverse Solutions | December 2025 – January 2026

- Completed MERN Stack internship at Viruzverse Solutions.
- Worked on frontend web development using React.js.
- Built responsive web pages using Bootstrap and React.js.
- Learned basics of MongoDB, Express.js, and Node.js.

## DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
