OBJECTIVE

Motivated Computer Science graduate seeking a Frontend or Full Stack Developer role. Proficient in React, Node.js, Express.js, REST APIs, and responsive UI development. Experienced in developing responsive web applications, integrating APIs, and building user-centric solutions through internships. Eager to contribute to impactful products and grow within an Agile team environment.

EDUCATIONAL INFORMATION

- Bachelor of Computer Science and Engineering , (2023-2027)
V.S.B College of Engineering Technical Campus (Affiliated with Anna University), Coimbatore 87%
- Higher Secondary Certificate (HSC) (2021-2023)
RKR GNANODHAYA Matric Higher Secondary School, 78%
Udumalpet

PROJECTS

GitHub Profile Search App [Github](#)

- Developed a real-time profile search app integrating the **GitHub REST API** via Axios, enabling dynamic fetching and rendering of user data including followers, following count, and public repositories
- Implemented **asynchronous API calls** using async/await with structured error handling for 404 responses, displaying user-friendly error cards for invalid usernames
- Rendered top 5 repositories dynamically using **DOM manipulation**, with direct links to each repository; optimized rendering performance by minimizing unnecessary DOM updates

Smart Car Parking Assistance System [Github](#)

- Built a **multi-page web application** (Login → Slot Selection → Booking Confirmation) for real-time smart parking management using vanilla JavaScript
- Implemented **localStorage -based state management** to persist user sessions, floor/slot data, and booking records across pages without a backend
- Developed dynamic **slot availability rendering** across 4 floors with color-coded status (available/occupied/selected), live cost calculation based on rate × hours, and one-click booking confirmation

Multilingual Ticket Translator [Github](#)

- Developed a Flask-based backend and REST APIs for multilingual ticket processing.
- Integrated **Generative AI** to perform translation, categorization, sentiment analysis, and automated response generation.
- Designed a scalable workflow for analyzing customer support tickets across **multiple languages**.
- Collaborated in a 4-member team using **GitHub** for version control and project management.
- Technologies:** Python, Flask, REST API, Gemini AI, GitHub, HTML, CSS, JavaScript

KEY SKILLS

Frontend: React, HTML5, CSS3, JavaScript, Bootstrap, Responsive Design

Backend: Node.js, Express, REST API Development

Languages: Python, Java, C++

Databases: MySQL

Tools: Git, GitHub, VS Code

Cloud: Google Cloud (NPTEL Elite + Silver Certified)

EXPERIENCE

Web Development Intern, Corizo(11/2024 – 12/2024)

- Built responsive front-end components using **HTML5**, **CSS3**, and JavaScript, ensuring mobile-first, cross-browser-compatible layouts for multiple core web applications
- Integrated third-party APIs and implemented dynamic **DOM rendering** to improve interactivity and page responsiveness.

Full Stack Development Intern, NoviTech (06/2025 – 07/2025)

- Integrated **RESTful APIs** using **Node.js** and Express to connect front-end views with back-end data, reducing redundant API calls through efficient state management
- Built and tested dynamic UI features using **JavaScript**, ensuring pixel-accurate rendering across mobile and desktop viewports

CERTIFICATIONS

- NPTEL | Elite Certification | Google Cloud Computing Foundations
- NPTEL | Elite + Silver Certification | Cloud Computing
- ICAT | Certification ID: CIT-P-2285772
- Corizo | Web development | Certification ID: CRZ82683
- NoviTech | Full Stack Development | Certification ID: NT-B47FS0201
- Servicenow | SNU2014691

ACCOMPLISHMENTS

- **Awarded Best Presentation** at the international conference conducted by RVS Technical Campus.
- Selected as a Campus Ambassador for **Corizo** and received an **offer letter**.
- **Leetcode**: Max Rating: 1587 | Problem solved: 400+ | [Leetcode](#)

LANGUAGES KNOWN

- English
- Tamil
